REPORT

Mr. William of Tennessee, submitted the following report to the Senate

to inform the Senate of the progress of the work of the United States Commission of Inquiry into the causes of the late war, and to report on the results of its investigations. The Commission was organized in 1865, and has since that time been engaged in a study of the various causes which led to the outbreak of the war, and in an effort to determine the extent of the responsibility of the different parties to the conflict. The Commission has held numerous public hearings, and has received many suggestions from the people of the United States. It has also conducted extensive research into the military, political, and social conditions of the country at the time of the war. The results of its investigations are set forth in the following report.
